

Wireless Telephone Instructions

1. Press the INT button (bottom right corner of the handset).
2. Use the up/down rocker to select **Handset #1**. *Note:* Handset #1 is always going to connect you with whatever service you need.

3. After selecting the handset to call, press the black button below the word **SELECT** on the display.
You should hear the phone ringing via your handset.
Wait for the service provider to pick up.
4. To end the call, press the **OFF** button.
